Dear Professor Park

**2000 OUTSTANDING SCIENTISTS OF THE 21<sup>ST</sup> CENTURY  
PUBLICATION LATE 2004**

I was very pleased to include your biographical entry in the First Edition of 2000 Outstanding Scientists of the 21<sup>st</sup> Century. I am now writing to ask if we may include the same entry or an amended version in the next edition of **2000 Outstanding Scientists of the 21<sup>st</sup> Century** which is due for publication and distribution around the world in late 2004. For your convenience in this regard, I am enclosing a copy of your latest entry and I would ask you to check it through and make any relevant corrections before returning it to me at this office.

Demand for this new edition promises to be great and early indications are that we will sell almost the complete print run prior to publication. I have as usual, however, reserved a limited number for the use of biographees only. Each copy is offered at a substantially reduced pre-publication subscription rate as a means of thanking you for checking and amending the enclosed copy entry. There is no obligation whatsoever to purchase. Selection is based on merit alone and the presence of your entry in the previous edition fast tracks your inclusion in this one. We are also proud to offer a fine range of Commemorative Awards to celebrate your significant achievements. I urge you to refer to the Priority Reservation Form overleaf.

May I thank you in advance for your assistance in this important matter. I look forward to receiving your authority to reproduce your entry in **2000 Outstanding Scientists of the 21<sup>st</sup> Century**.

Sincerely

A handwritten signature in black ink, which appears to read 'J. Gifford', is written over a horizontal line.

Jon Gifford  
Editor in Chief
